

# Assembly Instructions

## Cabin Bed

## Study Desk and Chair Set

IMPORTANT: **DO NOT DISPOSE** of the packaging until you are satisfied with your purchase. . Please keep all cardboard until fully assembled.

# TOP TIPS - TOP TIPS

Read before you start assembly

## Locating the Dowel Rods

To keep the bed from rattling all the dowel holes have been slightly mis-drilled by a couple of mm. When you push parts together the dowels will straighten and pull together to ensure a tight fit. Whenever you locate a dowel on the hole NEVER push it all the way in, leave it so it is loose and can be aligned with the second locating hole.

**Push them all the way in and they will not line up.**

## GLUE SACHET INCLUDED

We have included a sachet of glue.  
THIS IS NOT TO BE USED with the dowel rods.

Open the sachet and empty into a plastic container.  
Whenever you connect a confirmat bolt (D) or a connector bolt (B) into a barrel bolt (c) dip the end of the bolt in the wood glue and screw in as normal. This will act as a lock tight and prevent the bolt from working loose.

## Clean out the Pre-drilled Holes

You have brought a solid pine product. During the drilling process there may be sawdust still in the holes.

BEFORE you start assembly clear these holes with one of the bolts. Push the bolt through each hole, this will dislodge any sawdust or debris that could interfere with fixing the bed.

## Applying a Finish to the Beds

The bed can be used in a natural form. However if you are applying a stain or finish we advise that you build the bed first. When you are happy with your purchase then put a sheet under the product and apply your stain/paint to the manufacturers recommendations.

NOTE: we are unable to accept the return, under any circumstance once a finish has been applied. By painting the bed you have deemed to accept the quality.

## Chair and Table Legs

Make sure the WHITE Mark is facing upwards when laid on the floor

# Contents List

## Fixings

	<b>Fixing A</b> 40mm by 10mm Wooden Dowel Used to connect parts		
	Number required -		24
	<b>Fixing D</b> 90mm Confirmat Bolt Used to connect posts		
	Number required		22
	<b>Fixing K</b> Allen Key To connect bolts		
	Number Required		1

### Packing Note: DCS1

Description

Required

### DESK

Part DL - Table Leg LEFT

2

Part DR - Table Leg RIGHT

2

Part 1 - Top Short (410mm) Apron

2

## CUSTOMER CARE

**We have checked all parts to ensure they are free of damage. However timber is a natural, living product. Occasionally timber can still be adjusting to humidity, for this reason a crack or stretch mark may appear after the product has been packaged.**

**Strictly Beds and Bunks however have a  
FREE PARTS REQUEST**

**service in this unlikely event. You need to order a part please go to our FREE help desk  
[www.strictlyhelpdesk.co.uk](http://www.strictlyhelpdesk.co.uk).**

**Assistance: [help@strictlybedsandbunks.co.uk](mailto:help@strictlybedsandbunks.co.uk)**

# Build The Desk Desk - Build The Two Ends

Place two table legs on the carpet, DL to your left and DR to your right. **IMPORTANT**, ensure the white markings are facing upwards and located at the top. Position Part 1 with the groove facing you at the top. Position Part 2 at the bottom of the posts.

Inside bolt A (dowel) in each end of the these parts 1 and 2) and align with the dowel holes on each post. Dip Bolt D into the glue and push the holes of each corner post ,two per post and tighten. Now repeat and build the second end.

## Now Attach the Two Long Aprons and Desk Top

Now lay one end down, white markings facing you. Attach Part 2 as shown using fixings A and D, ensure the groove slot is at the top matching the ends. Slide the desk top in, again ensure the lip is at the bottom. Now attach the second end using bolts A and D

# Build The Chairs

Lay on the carpet part CBL to the left, CBR to the right. Ensure both the white chalk markings are facing front.

Now position parts 4 , 5 , and 7 as shown. Please ensure the groove on part 4 is facing upwards to the top. Now apply all the dowels (A). Now screw together using bolt D.

Now attach another two Part 4 to the left and right. Again ensure the Grooves are facing inwards and are located at the top.

Now slide the chair seat into the grooves of the panel. Please ensure , as with the desk the ticker part of the panel is facing upwards.

Lay on the carpet part CFL to the left, CFR to the right. Ensure both the white chalk markings are facing front.

Now position parts 7 as shown. Please ensure the groove on part 7 is facing upwards to the top. Now apply all the dowels (A). Now screw together using bolt D. Once built place on top and attach to complete the assembly.
