# TOP TIPS - TOP TIPS

Read before you start assembly

## Locating the Dowel Rods

To keep the bed from rattling all the dowel holes have been slightly mis-drilled by a couple of mm.

When you push parts together the dowels will straighten and pull together to ensure a tight fit. Whenever you locate a dowel on the hole NEVER push it all the way in, leave it so it is loose and can be aligned with the second locating hole.

**Push them all the way in and they will not line**

## GLUE SACHET INCLUDED

We have included a sachet of glue.

**THIS IS NOT TO BE USED** with the dowel rods.

Open the sachet and empty into a plastic container.

Whenever you connect a confirmat bolt (D) or a connector bolt (B) into a barrel bolt (c) dip the end of the bolt in the wood glue and screw in as normal. This will act as a lock tight and prevent the bolt from working loose.

## Clean out the Pre-drilled Holes

You have brought a solid pine product. During the drilling process there may be sawdust still in the holes.

**BEFORE** you start assembly clear these holes with one of the bolts. Push the bolt through each hole, this will dislodge any sawdust or debris that could interfere with fixing the bed.

## Applying a Finish to the Beds

The bed can be used in a natural form. However if you are applying a stain or finish we advise that you build the bed first. When you are happy with your purchase then put a sheet under the product and apply your stain/paint to the manufacturers recommendations.

**NOTE:** we are unable to accept the return, under any circumstance once a finish has been applied. By painting the bed you have deemed to accept the quality.

## Corner Posts -

Make sure the **WHITE** Mark is facing upwards when laid on the floor

### Headboard Facias-

These are colour coded  
Please position as follows:

**RED** - At the top

**WHITE** - In the middle

**BLUE** - At the bottom

# How to identify your parts and fixings

All our products have four attachment methods. These are colour coded, at the end of each part you will find a marker pen marking either RED, WHITE or BLUE (two types)

## RED MARKING/FIXINGS

The part will have a red marker pen marking on the end.

Hole / Bolt configuration:

One large dowel hole - Place for large dowel  
One small hole - Place for large 90cm confirmation bolt D

Areas this method is used:

Top front and back guard rails and top headboard facia

## WHITE MARKING/FIXINGS

The part will have a white chalk marking on the end.

Hole / Bolt configuration:

TWO large dowel holes - Place for large dowel

Areas this method is used:

Bottom front and back guard rails and centre headboard facia

## BLUE MARKING/FIXINGS -

The part will have a blue marker pen marking on the end.

Hole / Bolt configuration:

TWO large dowel holes - Place for large dowel  
One small centre hole - Place for large 90mm connector bolt D

## SIDE RAIL MARKING/FIXINGS

The part will have a blue marker pen marking on the end.

Hole / Bolt configuration:

TWO large dowel holes - Place for large dowel  
One small centre hole - Place for large 90mm connector bolt C  
Facing access hole - Place for barrel bolt B

# Fixings List

## Fixing A1

Small sachet of glue for bolts B & C (NOT dowels)

Number Required 4

## Fixing A2

70mm square wooden rail or base slat spacer

Number Required 1

## Fixing A

40mm by 10mm Wooden Dowel Used to connect parts

Number required - 36

Website: [www.strictlyhelpdesk.co.uk](http://www.strictlyhelpdesk.co.uk)  
All fixings are sent out via next day Royal Mail Post

# Assemble The Headboard

## **Lets build the headboard**

Start by place part CL to your left, CR to your right. You must ensure the white chalk makings are facing upwards. The locate the part 13 to the bottom. Using Bolts A and D attach the blue bottom facia. Now attach the two arches, LSA to your left, RSA to your right. Again using fixings A and D attach. When you place the arch on top of each corner post please apply a sachet of GLUE to bond. Now repeat to make both the ends.

## **Attach the siderails and top facia**

Now with a second person stand each end up and attach the siderails and part 4K. Using bolts A, B and C attach to each corner post. Please ensure the white chalk markings are facing inwards. TIP- Make sure you clean out the access holes in the siderail incase sawdust is still present.

## **Attach the top Centre Rail**

Now locate and fix the top centre rail CHR using parts A & D

## Attach base slats

You will have twelve extra wide base slats. Push the first slat tight with the footboard corner posts, then using the base slat spacer block evenly space out the remaining base slats. **DO NOT SCREW IN PLACE YET.**

Now push the slats flush to the left hand side rail and screw in (do not screw the right hand side yet). Now go to the right hand side and start with the slat near the centre. Push the side rail in so the slat is flush, then fix using the screw. This aligns the side rail. Now fix the remaining base slats.

## IMPORTANT SAFETY NOTICE

This bed is not designed to be a climbing frame. Please instruct/teach the user not to hang off or balance from the top centre rail.

## CUSTOMER CARE

We have checked all parts to ensure they are free of damage. However timber is a natural, living product. Occasionally timber can still be adjusting to humidity, for this reason a crack or stretch mark may appear after the product has been packaged.
